CYBER THERAPY 2005

June 6 - 10 2005
Basel, Switzerland

The CyberTherapy Conference brings together researchers, clinicians and funders to share and discuss the growing field of CyberTherapy. This year's theme acknowledges the increasing use of interactive media in both training and therapeutic interventions. Technologies include virtual reality simulations, videogames, telehealth, the Internet, robotics, and non-invasive physiological monitoring devices.

It is our pleasure to provide you a spectacular social program: Visit with us the famous Schilthorn, with a panoramic view at an altitude of 2970m (Eiger, Mönch and Jungfrau that are Unesco World Natural Heritage, along the Bernese Alps to Mont-Blanc and further to Germany's Black Forest). The Schilthorn provided the perfect location for thrilling action scenes in the James Bond film "On Her Majesty's Secret Service".
